**SUPPLEMENTARY QUESTIONS QUESTIONS** - These questions and the patient declaration are optional and your answers will not affect your entitlement to register or receive services from your GP.

### PATIENT DECLARATION for all patients who are not ordinarily resident in the UK

Anybody in England can register with a GP practice and receive free medical care from that practice.

However, if you are not ‘ordinarily resident’ in the UK you may have to pay for NHS treatment outside of the GP practice. Being ordinarily resident broadly means living lawfully in the UK on a properly settled basis for the time being. In most cases, nationals of countries outside the European Economic Area must also have the status of ‘indefinite leave to remain’ in the UK.

Some services, such as diagnostic tests of suspected infectious diseases and any treatment of those diseases are free of charge to all people, while some groups who are not ordinarily resident here are exempt from all treatment charges.

More information on ordinary residence, exemptions and paying for NHS services can be found in the Visitor and Migrant patient leaflet, available from your GP practice.

**You may be asked to provide proof of entitlement in order to receive free NHS treatment outside of the GP practice, otherwise you may be charged for your treatment. Even if you have to pay for a service, you will always be provided with any immediately necessary or urgent treatment, regardless of advance payment.**

The information you give on this form will be used to assist in identifying your chargeable status, and may be shared, including with NHS secondary care organisations (e.g. hospitals) and NHS Digital, for the purposes of validation, invoicing and cost recovery. You may be contacted on behalf of the NHS to confirm any details you have provided.

Please tick one of the following boxes:

- a)
☐ I understand that I may need to pay for NHS treatment outside of the GP practice
- b)
☐ I understand I have a valid exemption from paying for NHS treatment outside of the GP practice. This includes for example, an EHIC, or payment of the Immigration Health Charge (“the Surcharge”), when accompanied by a valid visa. I can provide documents to support this when requested
- c)
☐ I do not know my chargeable status

I declare that the information I give on this form is correct and complete. I understand that if it is not correct, appropriate action may be taken against me.

**A parent/guardian should complete the form on behalf of a child under 16.**

# Sharing Your Health Record

## What is your health record?

Your health record contains all the clinical information about the care you receive. When you need medical assistance it is essential that clinicians can securely access your health record. This allows them to have the necessary information about your medical background to help them identify the best way to help you. This information may include your medical history, medications and allergies.

## Why is sharing important?

Health records about you can be held in various places, including your GP practice and any hospital where you have had treatment. Sharing your health record will ensure you receive the best possible care and treatment wherever you are and whenever you need it. Choosing not to share your health record could have an impact on the future care and treatment you receive. Below are some examples of how sharing your health record can benefit you:

- Sharing your contact details This will ensure you receive any medical appointments without delay
- Sharing your medical history This will ensure emergency services accurately assess you if needed
- Sharing your medication list This will ensure that you receive the most appropriate medication
- Sharing your allergies This will prevent you being given something to which you are allergic
- Sharing your test results This will prevent further unnecessary tests being required

## Is my health record secure?

Yes. There are safeguards in place to make sure only organisations you have authorised to view your records can do so. You can also request information regarding who has accessed your information from both within and outside of your surgery.

## Can I decide who I share my health record with?

Yes. You decide who has access to your health record. For your health record to be shared between organisations that provide care to you, your consent must be gained.

## Can I change my mind?

Yes. You can change your mind at any time about sharing your health record, please just let us know.

## Can someone else consent on my behalf?

If you do not have capacity to consent and have a Lasting Power of Attorney, they may consent on your behalf. If you do not have a Lasting Power of Attorney, then a decision in best interests can be made by those caring for you.

**What about parental responsibility?**

If you have parental responsibility and your child is not able to make an informed decision for themselves, then you can make a decision about information sharing on behalf of your child. If your child is competent then this must be their decision.

**What is your Summary Care Record?**

Your Summary Care Record contains basic information including your contact details, NHS number, medications and allergies. This can be viewed by GP practices, Hospitals and the Emergency Services. If you do not want a Summary Care Record, please ask your GP practice for the appropriate opt out form. With your consent, additional information can be added to create an Enhanced Summary Care Record. This could include your care plans which will help ensure that you receive the appropriate care in the future.

**How is my personal information protected?**

<Organisation Details> will always protect your personal information. For further information about this, please see our Privacy Notice on our website or please speak to a member of our team

For further information about your health records, please see:

## Access to GP Online Services

**Important Information – Please read before completing form below**

If you wish to, you can now use the internet (via computer or mobile app) to book appointments with a GP, request repeat prescriptions for any medications you take regularly and look at your medical record online. You can also still use the telephone or call in to the surgery for any of these services as well. It's your choice.

It will be your responsibility to keep your login details and password safe and secure. If you know or suspect that your record has been accessed by someone that you have not agreed should see it, then you should change your password immediately. If you are unable to do this for some reason, we recommend that you contact the practice so that they can remove online access until you are able to reset your password.

If you print out any information from your record, it is also your responsibility to keep this secure. If you are at all worried about keeping printed copies safe, we recommend that you do not make copies at all.

During the working day it is sometimes necessary for practice staff to input into your record, for example, to attach a document that has been received, or update your information. Therefore you will notice admin/reception staff names alongside some of your medical information – this is quite normal.

The definition of a full medical record is all the information that is held in a patient's record; this includes letters, documents, and any free text which has been added by practice staff, usually the GP. The coded record is all the information that is in the record in coded form, such as diagnoses, signs and symptoms (such as coughing, headache etc.) but excludes letters, documents and free text.

Before you apply for online access to your record, there are some other things to consider. Although the chances of any of these things happening are very small, you will be asked that you have read and understood the following before you are given login details.

**Forgotten history**

There may be something you have forgotten about in your record that you might find upsetting.

**Abnormal results or bad news**

If your GP has given you access to test results or letters, you may see something that you find upsetting to you. This may occur before you have spoken to your doctor or while the surgery is closed and you cannot contact them.

**Choosing to share your information with someone**

It's up to you whether or not you share your information with others – perhaps family members or carers. It's your choice, but also your responsibility to keep the information safe and secure.

**Coercion**

If you think you may be pressured into revealing details from your patient record to someone else against your will, it is best that you do not register for access at this time.

**Misunderstood information**

Your medical record is designed to be used by clinical professionals to ensure that you receive the best possible care. Some of the information within your medical record may be highly technical, written by specialists and not easily understood. If you require further clarification, please contact the surgery for a clearer explanation.

**Information about someone else**

If you spot something in the record that is not about you or notice any other errors, please log out of the system immediately and contact the practice as soon as possible.
